## Vehicle Energy Japan's Battery Modules Adopted for Nissan Compact Crossover "JUKE" Hybrid for Europe

**Tokyo, June 23, 2023** --- Vehicle Energy Japan Inc. (Representative Director, President and CEO: Hiroshi Ikeuchi/ Headquarter in Japan, hereinafter referred to as "VE-J") announced that its lithium-ion battery module has been adopted by the Compact Crossover "JUKE" Hybrid which has been launched in Europe by Nissan Motor Co., Ltd. (Representative executive officer, president and CEO: Makoto Uchida/ Headquarter in Japan, hereinafter referred to as "Nissan").

This battery module has realized an electrical/mechanical design that ensures battery safety and a cooling design that maximizes battery performance, making it an optimal battery module for the "JUKE" Hybrid.

Vehicle Energy Japan will strengthen its battery products, such as battery packs and battery modules, to contribute to the widespread use of electric vehicles from automakers, and for environmental conservation.
